WORK EXPERIENCE

Freelance development
front-end developer,
Mar 2023 - Now

```
Since I lost my job during that blackout winter when
russia started to annihilate our infrastructure, it
became very hard to find a job in Ukraine during the
war. So that's why I mostly worked on some website
developing projects on freelance and for friends. I
am not including this time in my total work
experience,but want to say that I keep learning and
improving my skills.
```

Sprakkraft - Brainglass, Sweden (Remote)
front-end developer, app designer
May 2021 - Feb 2023

It was a Swedish product company where I worked
remotely as a frontend developer and also
simultaneously as a designer of the new features for the
projects we were working on. Also I then integrated
those features into our products.
In addition to that, I was responsible for maintenance
of websites: sprakkraft.se, sprakkraft.org.
And we had outsource contracts with "UR Play"and
"YLE", where my role was mostly maintenance of their
websites and adding new features to websites and
video players.

English - B2-C1
Polski - B1

SKILLS

HTML/CSS/JS
SCSS/SASS/
styled-components
REACT.JS
TYPESCRIPT
NODE.JS

FIGMA/
Photoshop/Illustrator

Jet-up, Khmelnitskiy
junior react-developer

Sep 2020 – Dec 2021

I started my career path here - in a local company, but
I wasn't there for a long time because of Covid
pandemic and the traffic crisis that appeared because
of that. Company demanded from us to come to the
office anyway, and forbade working remotely.

Upwork, freelance
2d artist, web-designer, web-developer

Aug 2017 – Jan 2020

Long time I was working as a freelancer. I started as an
artist for pixel-art games and web-designer. But later I
learned html/css and started to take projects for
developing templates and simple landing web-pages.

I also had other places of work, but they are not relative
to my IT career.

EDUCATION

Udemy, Coursera - full-stack web development

May 2020 – Oct 2020

I got most of my IT-education online, on different courses.
My higher education is not related to web-development.
